

Library Pocket Template

by Kristine Macabare | www.katharses.org | kristine@katharses.org

You can do this one of two ways:

Print this template out on a heavy weight piece of card stock and cut on the solid lines. Then use your cut-out as a template to trace on your sheet of paper.

Or you can print this template directly onto the REVERSE side of the card stock you want to use for the library pocket. Cut on the solid lines and score and fold on the dotted lines.
